Internal Coach Education and Development

In soccer, the completion of attendance at North York Academy coach education events and further relevant coach education courses is an ongoing process and will therefore enhance the competence of our coaches, as well as their own career in coaching. This will help ensure that all coaches maintain, or even improve, the knowledge and skills required to deliver the best possible professional service to North York Academy players. Completing North York Academy coaching education will therefore mean that you and your coaching knowledge stay up to date, and informed of the latest trends within the game.

North York Academy is committed to holding various events, courses, webinars, etc. for our coaches. Coaches are required to attend coach education sessions organized by the academy. Coaches are also entitled to have one feedback/assessment session per year to discuss professional accomplishments, goal setting and professional development. These events will be advertised through our email communication and NYA WhatsApp coach group.

External Coach Education

North York Academy ensures that all of our coaching staff have the stage and league appropriate certification or/and licensing. The academy promotes a life-long learning of its technical staff.
